Matt – it's my understanding that this included documents responsive to all of the communication requests (Nos. 1, 2, 5, 17-28, and 30); but I'll confirm with the client and let you know.

If you can specify exactly what you're looking for, rather than 2+ years of stuff (in some requests), I'd be happy to get it.

Thanks,
Brodi

What part of the production is this held out as? It does not seem necessarily complete based on information I already have, so I am assuming it is some but not all.

Our IT folks were going to prepare the partial production to get out today, but I was able to complete the entire review. So they're going to prepare the *complete* production of remaining responsive records and then upload those to a ShareFile to send to you.

Just wanted to update you.

Matt –

Attached is an initial response letter to your public records request. Thousands of pages of responsive records are available to you at the following link:

<https://bricker.sharefile.com/f/foc97b8f-12b0-46da-9af7-04fae6b32a99>

Your email is attached to an account; but you will need to "reset password" the first time that you access.

As I say in the attached letter, this is just an initial production. Practically speaking, I expect a smaller production to you mid next week with some items from folks that were out of town. I also received records from my client for the communication requests (Nos. 1, 2, 5, 17-28, and 30) and have begun review of those records. I'll release those on a rolling basis as they are reviewed for responsiveness and exemptions. My goal is the end of next week, but it might leak into the following week.

Thanks, and have a nice weekend.

Subject: RE: records request

This message originated outside your organization.

Gentlemen,

Regarding this production, I am confused. Concerning Request No. 1, 2, 3, and 6, is the County suggesting that these are all the responsive records from the County, generally, or just the Sheriff's Department? And the records produced *allegedly* to Requests Nos. 1, 2, 3, and 6, do not even seem to respond to those requests. For example, Request No. 6 asks for meeting minutes for the Commissioners' workshops. It is unclear why the Sheriff's Department would answer this, and more importantly, not such minutes were even produced, so I am confused as to why this email represents that it has responded to Request No. 6, when it clearly has not.

All of these Requests are about 6 weeks old, and I have received practically nothing in response, which is very problematic because some of these requests are for records, which any County should be able to produce in hours, let alone weeks. For example, as stated earlier, Request No. 6 asked for meeting minutes for the County Commissioners' "Workshops." I should be to walk into the County building on a random day and receive those on the spot. It is not appropriate to fail to produce them for six weeks. In addition, Request No. 7 merely asked for the County's Records Retention Policies. I should have had this in my inbox weeks ago. Requests Nos. 8 and 9 asked for the Records Commission meeting notices and meeting minutes. Of all the requests made, you would think that a public records commission, which is supposedly the commission which is the commission tasked with setting the standard for County transparency, would immediately be able to respond. Yet, I have nothing about 6 weeks later.

Simply stated, I have not received one records retention policy, meeting minute, agenda or other basic and (should be) readily available public records.

I am on the brink of filing for a writ of mandamus in the Supreme Court if I do not start receiving these records in haste. If they are not available because they do not exist, then inform me of this because you have a statutory duty to do so. They certainly do not fall under any statutory exemption. Here is my requests again for your convenience:

Definition of "communication" as used in this Request: Communication in these Requests includes any tangible form of communications, whether written, video, audio, email, text message, social media messaging, or sticky notes and other papers and writings.

2. Any communications between any Commissioner, Commissioners' office staff, the County Auditor, and the County Auditor's staff mentioning or relating to the County budget preparation sent between October 1, 2021, and the present.
3. Any and all communications related to Niki Frenchko's requests for meetings related to the budget, information related to the budget, or any other of Niki Frenchko's communications about the budget sent between October 1, 2021, and the present.
4. A copy of all of Niki Frenchko's public records requests to staff at the county, including but not limited to her requests to the sanitary engineer, Human Resources department, and commissioners' office staff, between January 1, 2022, to the present.

5. *Any communication between Shara Taylor, any commissioner, and other staff or elected officials involving commissioner Frenchko's laptop or request for a laptop between January 1, 2022, and the present.*
6. *Any and all meeting minutes for the Commissioners' "workshops" occurring between January 1, 2022, and the present.*

12. *A copy of all meeting minutes for the meetings of the County Budget Commission between January 1, 2020, and the present.*
13. *Any and all employment applications that the County received for any position in the County's Human Resources Department between January 1, 2020, and the present.*

15. *Any and all employment applications that the County received for any position in the County's Administrative offices between January 1, 2020, and the present.*

Matt – trying this again...lol.

Attached is a supplemental production letter. And all records that have been released to this point (so the initial production from May 5 and now this supplemental production) should be available at the following link:

<https://bricker.sharefile.com/f/fo3cd433-f276-4375-9bf6-733a2f7cdaec>

The only remaining requests should be for communications. I received like 3700 emails from the County and am in the process of reviewing of those. They will not be released in the tidy fashion that I've done to this point, mainly because they were provided to me in a single drop. So my apologies for that.

Matt –

It shows that you have access; and it's showing me, at least, that there are like 8 different subfolders with docs inside. I sent you another email.

Promise not screwing with you lol; legitimately trying. I had asked my secretary to handle (I had a hearing Wednesday and then a brief due tomorrow); but she ended up being out today and I think tomorrow. If this doesn't work, let me know and I'll try something else.

Thanks,
Brodi

Matt –

Attached is an initial response letter to your public records request. Thousands of pages of responsive records are available to you at the following link:

<https://bricker.sharefile.com/f/foc97b8f-12b0-46da-9af7-04fae6b32a99>

Your email is attached to an account; but you will need to “reset password” the first time that you access.

As I say in the attached letter, this is just an initial production. Practically speaking, I expect a smaller production to you mid next week with some items from folks that were out of town. I also received records from my client for the communication requests (Nos. 1, 2, 5, 17-28, and 30) and have begun review of those records. I’ll release those on a rolling basis as they are reviewed for responsiveness and exemptions. My goal is the end of next week, but it might leak into the following week.

Thanks, and have a nice weekend.

Thanks for reaching out. I just got this request on Tuesday and got on a plane on Wednesday (and am out thru the rest of the week). I have a call set up for early next week with the client to talk thru your 30 requests and sort thru them. Subject: RE: records request

This message originated outside your organization.

Gentlemen,

Regarding this production, I am confused. Concerning Request No. 1, 2, 3, and 6, is the County suggesting that these are all the responsive records from the County, generally, or just the Sheriff's Department? And the records produced *allegedly* to Requests Nos. 1, 2, 3, and 6, do not even seem to respond to those requests. For example, Request No. 6 asks for meeting minutes for the Commissioners' workshops. It is unclear why the Sheriff's Department would answer this, and more importantly, not such minutes were even produced, so I am confused as to why this email represents that it has responded to Request No. 6, when it clearly has not.

All of these Requests are about 6 weeks old, and I have received practically nothing in response, which is very problematic because some of these requests are for records, which any County should be able to produce in hours, let alone weeks. For example, as stated earlier, Request No. 6 asked for meeting minutes for the County Commissioners' "Workshops." I should be able to walk into the County building on a random day and receive those on the spot. It is not appropriate to fail to produce them for six weeks. In addition, Request No. 7 merely asked for the County's Records Retention Policies. I should have had this in my inbox weeks ago. Requests Nos. 8 and 9 asked for the Records Commission meeting notices and meeting minutes. Of all the requests made, you would think that a public records commission, which is supposedly the commission which is the commission tasked with setting the standard for County transparency, would immediately be able to respond. Yet, I have nothing about 6 weeks later.

Simply stated, I have not received one records retention policy, meeting minute, agenda or other basic and (should be) readily available public records.

I am on the brink of filing for a writ of mandamus in the Supreme Court if I do not start receiving these records in haste. If they are not available because they do not exist, then inform me of this because you have a statutory duty to do so. They certainly do not fall under any statutory exemption. Here is my requests again for your convenience:
